Month
recommendation!

The Festival Calle Libre 2022 has as its theme **"Regeneration"**, based on the importance of going beyond sustainability, towards the regeneration of people, communities and entire ecosystems.

Through art, different murals will be created to reflect these values in an area where a new housing district will be built in Vienna in the future.

The artist Soma Difusa and all the artists of the festival, will use this space to express the vision of a green, ecological and socially sustainable future. Activity of Plan to Promote Colombian Abroad.
